ABOUT

Weavetech is a young, vibrant and energetic company leading the way in the production of narrow fabric within the South African Textile industry. Based in Durban, we produce the best of Woven Tapes & Cords, Braided Drawcords, Webbing, Woven Elastic and Piping to name a few.

Weavetech was founded in 2015, borne from a desire to bring a new excitement to the textile industry. We are a family run business and continue to grow and expand on a solid foundation of reliability and consistency in relation to quality and service. We apply creativity and imagination to any product that we create. We are constantly in search of NEW materials, fibres, colour-combinations and production techniques in order to innovate and stay ahead of the trends. We understand the significance and importance that narrow fabric brings to each product. It simply adds the finished touch!

“
young,
vibrant and
energetic
”

THE DIFFERENCE

Determined to enhance the customer experience, we believe in three key attributes:

Attention to Detail

Passion for Quality

Unsurpassed Customer Service

THE PRODUCTS

All products are available in 100% Cotton, Polyester and Polycotton.
If you require any other material/fibre please let us know. Products can be dyed to match as per your specific colour requirement (min quantities apply).

1. WOVEN TAPES

Woven tapes are known for their strength and stable dimensions.
They are produced by interlacing yarn at right angles to form a tape.

TYPES OF TAPE:

Petersham, Twill (Herringbone), Tubular, Honeycomb, Whole Colour, Stripe, Saddle Stitch, Lurex and Customized printed tape
Size: 3 mm – 100 mm

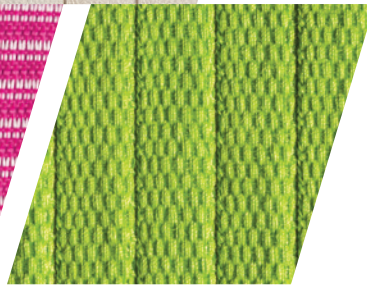

▲ Petersham

◀ Twill (Herringbone)

▲ Honeycomb

▲ Tubular

▲ Whole colour

◀ Stripe

▲ Saddle Stitch

▲ Lurex

2. BRAIDED/KNITTED DRAWCORD

Braided drawcord utilises an intertwining motion of yarn that produces both Flat and Round drawcord in various designs, styles and colours. Tipping in both plastic and metal tips are available.

TYPES OF CORDS:

Round, Flat, Piping, Speciality Products, Shoe Laces

▲ Round
