## Kingfisher Prints

Where Quality Matters

Established in 1984

## Company Profile

Established in 1984, Kingfisher Prints is the most comprehensive fabric converter in Southern Africa and has an enviable reputation in the region and Europe for its fine quality services and finished products.

Based in Harare, Zimbabwe, the company employs highly skilled, experienced specialist staff and the best available raw materials and machinery to meet the precise requirements of its local, regional and international clientele.

Kingfisher Prints Specialises in the following:

- Textile Printing
- Fabric Dyeing
- Promotional Prints
- Church Prints
- Curtaining Prints
- Uniform Prints
- Java Prints
- Wraps, Head Gears and Aprons

We also design, originate, print, dye, cure and supply special finishes to a wide range of fabrics. We have ready access to one of the world's most prized natural fibers in Zimbabwe cotton and to the regional shipping, road and air transport networks.

The company supplies a large percentage of the Zimbabwean hospitality industry's soft furnishing fabric requirements and commands a considerable share of the South African textile market by supplying major distributors who service outlets in that country and the region.

Our driving philosophy ensures we provide reliable, efficient and quality services world-wide.

## Technical Proficiency

Using one of Zimbabwe's major export crops, cotton, Kingfisher Prints is well known for its wide range of furnishing fabrics - supplying the nation and the region with export quality textiles. Kingfisher Prints is regarded as the most comprehensive textile converter in Southern Africa, not only printing fabrics but dyeing and finishing a variety of both natural and man-made fabrics, both woven and knits.

Kingfisher Prints fully trained art department is not only skilled in the use of the Adobe Creative Design Suite but are also proficient using the conventional methods of design.

Our laser engraver can produce screens quickly for maximum efficiency and workflow.

Designs are selected for suitability on either Flatbed or Rotary printing machines on fabrics specially prepared within our premises. In addition to the printing, Kingfisher Prints also does dyeing of fabrics, not only on cotton but also on polyester and polycotton using our fully equipped laboratory for colour matchings of the highest international specifications. It must be noted that all printing and dyeing chemicals are imported from Europe and conform to environmental friendly standards.

Once printed or dyed, various finishing options are available to the customer; from Brushing, Sanforising, Softening, Shower proofing and Stiffening to Crease Resists and Flame Retardants. Kingfisher Prints central location in the capital city of Harare provides us with ready access to national, regional and international air, road, rail and shipping networks.
