Sheentex Ltd created in 2003, is a medium size enterprise specialized in the manufacturing of knitwear products such as pullovers, cardigans, ponchos, scarfs, bonnets, etc. We exports mainly to the European and South African markets. Our products are for any genders at any ages, and are made from yarns such 100% cotton, 100% cashmere, 100% merino wool, alpaca, mixed cashmere/wool/ cotton, and from lots of other fantasy composition including organic, bio or recycled yarns.

Our factory has a monthly average knitting capacity of 20,000 pcs from 1.5 to 14 gg on handflat, multigauges Stoll machines. We can do complicated styles with cables, jacquards, intarsia and other exhaustive fantasy stitches. We are a vertically fully integrated factory, from the raw material sourcing for the knitting up to the finished

products including internal washing, pressing and packing, with optional printing and embroidery facilities. We offer to make the sourcing of the labeling trims for complete packing customization. Our work philosophy is driven by “QUALITY THAN QUANTITY” and we do even accept small order quantities into several colors, at very competitive prices, as we are very well aware on the needs of our customers.
